INFINITY AVIONICS

YOUR EYES IN SPACE

0

Infinity Avionics is an Australian company which provides reliable and rugged optical sensor and processor solutions for the space industry and other high-reliability applications.

Onboard **20+** space missions

Our vision is to put our customers at the forefront of their missions through our reliable, robust and qualified technology solutions complemented by our know-how, specialised facilities, experience and expertise.

The team at Infinity Avionics is experienced in electronics design for space applications, project management, systems engineering, defence, and manufacturing, having contributed to the success of several Australian space missions.

104

Infinity Avionics provides space flightproven and radiation-tested sensor and processor subsystems for space missions worldwide. Additionally, Infinity Avionics provides consulting services to design and deliver custom sensor payloads to meet customers' mission requirements in a timely manner.

5+ space qualification campaigns

Provided expertise to **20+** design studies

30+ years collective Aerospace

experience

Technical specifications Field of view 40/90/110 degrees 1024 x 768 800 x 600 Resolution 640 x 480 JPEG Image encoding On-board storage 500 images Up to 12 FPS Frames per second UART with ASCII commands Communication interface Baud Rate 115200 750mW Power consumption Operating temperature -20 C to 60 C Mass 10 q 50 mm x 30 mm Size Flight heritage Since 2018 Environmental qualification NASA GEVS Total ionizing dose Up to 30 kRad TRL 9

SelfieCam is a small form factor, TRL9, low resolution space asset monitoring camera. The camera can capture and save images in nonvolatile memory. It is designed with ease of integration and operation in mind, providing capability of low-resolution imaging on-orbit.
